

Vendor Follow-up Memo

This page is intentionally image-based.

Use this PDF to test Preview Live Text or an OCR workflow.

Context

- Loqate address lookup must fail open to manual entry.
- Vendor slowness should not block checkout completion.
- The team needs clear ownership for renewals and tooling.

Suggested Obsidian links

- Link to the incident postmortem.
- Link to checkout design review notes.
- Link to tooling and cross-browser testing improvements.

Action reminder

Confirm timeout, retry, and fallback behavior before launch.
